Every individual wants peace of mind. But it is hard to find a person who can say that he has attained such a state of mental equilibrium as will allow him to live a life of tranquility. Peace of mind is a distant dream for all of us. What is the reason for this? The reason is that people hanker after ideal peace that is pure peace-a peace that is free from all kinds of non-peace items.

But this kind of absolute peace is not in nature's store house. Let us take the analogy of rose. A rose is a very beautiful flower, but every stem has its thorns. Indeed, thorns are an integral part of the rose plant. A poet has rightly said that thorns serve as security guards for the flower. There must be non-peace items along with peaceful items. A peaceful mind is a very precious aspect of human nature and it too needs safety to maintain its sublime quality.

 (a) Peace of mind (b) fulfilling our ambition
 (c) meeting our targets (d) climbing the mountains [a]

He welded the weak and divided mass of our countrymen into a brave and self-reliant people. Such a rare combination of qualities would inspire the most downtrodden people to look forward towards an optimistic future.

Read the following passage and answer the questions :

The conquest of happiness has meant different facts to different generations. Our forefathers took pride in scholarship, a spirit of sacrifice and solicitude for the welfare of others. Gone are those days. Today we live only for ourselves. We are jealous of the advancement of our neighbours. We end up tense and unhappy. The term 'happy' has a variety of meanings. It stands for the lucky, fortunate, content, glad or apt. Happiness lies within the mind of the individual. No amount of external wealth may be helpful in making him happy.

Our forefathers had life styles, very much different from those we have today. Their life was based mainly on the concept of 'Simple living and high thinking.' People were satisfied with whatever they obtained after working hard. Excessive material wealth did not mean much for them they derived mental satisfaction and enrichment which they aimed at.

The structural framework of our forefather's families was different from those of ours. They lived in a cohesive joint family structure where they were happier than us. They cared for each other. The siblings grew up with their cousins. The bond of love which they share cannot be easily found in the nuclear family of the day. The family provided an emotional cushioning effect against tension and stress.

Sir

Recently there has been an alarming increase in the number of thefts in the Nehru Park area of this city. Hardly a day passes when there is no theft of burglary. Cases are regularly reported to the nearest Police Divisions but no head way has so far been made in apprehending the culprits. To be quite frank, people have started doubting that the policemen have a hand in these thefts and burglaries. Though it is a wild charge, the fact remains that the culprits always go scot - free. There is a danger to the life to the residents also since the burglars come armord with knives and pistols. It is requested that night patrolling in this area should be intensified and all - out efforts should be made to nab the culprits.
